Subject: Application for Data Encoder Position

Dear Hiring Manager,

I am writing to express my interest in the Data Encoder position at St. Mary's University, ICT Department. I am a Computer Science graduate with strong knowledge in database systems, information management, and computer applications. I am confident that my educational background and technical skills make me a strong candidate for this position.

During my studies, I gained practical knowledge in data management, database handling, and computer systems. I have strong skills in accurately entering data into computer systems and databases while maintaining attention to detail. I am also experienced in verifying and reviewing data for errors or missing information, organizing documents properly, and transferring data from paper-based records into digital formats efficiently.

In addition, I am dependable, organized, and committed to completing tasks accurately and within deadlines. I am comfortable working with different computer applications and maintaining confidentiality of sensitive information.

I am very interested in contributing my skills to St. Mary's University and supporting the ICT department in maintaining accurate and well-organized data systems. I have attached my CV and supporting documents for your consideration, and I am ready to submit my application in person as required.

Thank you for your time and consideration. I look forward to the opportunity to discuss my application further.

Sincerely,

Kaleab Getnet Wube
